

# Treat your students: bring a professional puppet show into your school!

## Elementary School - Kindergarten - Preschool

As a professional puppeteer, I created a story for a young audience (preK-3rd graders), using handcrafted wooden string puppets. This tale-like story is about a small adventurous cat who is accidentally left outside on a warmer winter day in the middle of the Boreal Forest.

**Themes:** friendship, overcoming prejudice and fears, growing up, animals wintering in Alaska.

**Q&A:** The show is followed by a short presentation of the puppets for the students to meet them more closely.

**Puppet workshop:** Each student will then be able to make a little puppet inspired from the show to continue to play at home.

**Age group:** pre-K to 3rd graders

**Duration:** 50 min total: ~25 min puppet show, ~5 min Q&A, ~20 min puppet workshop (with adult help).

**Audience:** up to 25 students per show. If you have larger class sizes, They need to be split into two groups.

**Setting time before show:** 2 hours

**Taking down after shows:** 1 hour

**Reset time in between shows:** 30 minutes minimum

**Stage space needed:** 10 ft length / 8 ft depth

**Other requirements:** access to an electric plug, and extra hands for the workshop part.

### Price:

450\$ for one show (includes mini workshop)

600\$ for 2 to 3 shows within the same space and day.

Outside of Fairbanks, a transportation fee, as well as a lodging and food stipend will be added as needed.

*I am an official vendor for the Fairbanks North Star School District.*

*I also provide Art residencies in Schools over the State of Alaska. For more info about this option:*
